MAeSI, FIETE, FIE, MIDSA, MMNF, MRWSI.

Former Chairman

- Hindustan Aeronautics Limited (HAL)
- Pawan Hans Helicopters Limited (PHHL)

7th August, 2018

MESSAGE

The Indian Aerospace industry is set for massive growth. This is expected to drive growth in Aviation MRO activities. It is advantageous to have the MRO facilities developed within the country since it would involve a lot of savings in cost, create massive employment opportunities and foster the growth of many dependent enterprises.

The Indian Aerospace and Defence (A&D) sector is a focus market for many global A&D countries. The Indian market is also attractive for domestic industrial produce conglomerates looking for growth opportunities in the A & D Sector.

I am, therefore, very happy to note that STAT Times is organizing its 2nd Aerospace & Defence MRO South Asia Summit at Taj Mahal Hotel in New Delhi in January, 2019. Such events will serve to create opportunities for the global as well as domestic players to meet under one platform, assess business opportunities leaving a whole lot of benefits for the country in sectors of manufacturing, job opportunities and trade and commerce.

I wish that the two day summit produces lively and fruitful discussions on current issues in the Aerospace industry.

(Dr. R.K. Tyagi)
President.
